Dear sir,

Thank you for the opportunity to apply for Data Quality Assurance Engineer at your company. I am an undergraduate student in BSc(hons) Computer Science. After reviewing your job description, it's clear that you are looking for a Strong desire to work in a quality focused environment, balancing multiple projects responsibilities concurrently with effectiveness and efficiency. Candidate that is well-experienced in analytical and problem-solving skills, leadership and management and have practical experience in IT background, extremely familiar with the responsibilities associated with the role and can perform them confidently. Given these requirements, I believe that I have the necessary skills to successfully do the job adeptly and perform above expectations.

I have learned the computer science module from the schooling level and have basic knowledge about programming language like: Python, HTML, CSS, JAVA and basic knowledge about C++ as well. I also have the experience on video editing and photo editing in Photoshop. Overall, I have consistently demonstrated critical thinking, communication, and interpersonal abilities in every aspect for Data Quality Assurance Engineer role at your company and I invite you to review my detailed achievements in the attached resume.

After reviewing my resume, I hope you will agree that I am the type of competent and competitive candidate you are looking for. I look forward to elaborating on how my specific skills and abilities will benefit your company. Thank you for your consideration, and I look forward to hearing from you soon.

Sincerely,
Sumit Pradhan
